

# DUDLEY KNOX LIBRARY

<http://web.nps.navy.mil/~library>

**Defense Technical Information Center (DTIC)**

DTIC is a clearinghouse for a wide variety of defense related scientific and technical reports of interest to all NPS curricula. Through its Scientific and Technical Information Network (STINET) database, DTIC indexes, abstracts, and sometimes provides the full text of these reports. The library owns some in print, and has nearly all of them available on microfiche.

\*You must obtain a password to use **Secure STINET**. Follow the appropriate instructions below:

- **NPS resident students** (U.S. citizens only) use the form at <http://www.dtic.mil/dtic/student-stinet.html>. The library will contact you when your Secure STINET user name and password arrive.
- **NPS faculty and staff** (U.S. citizens only) use the form at <http://www.dtic.mil/dtic/s-stinet-app.html#form> (User Code **89491**). Ignore the Payment Field Block. You will receive your user name and password from DTIC via registered mail.
- **NPS Distance Learning students** (U.S. citizens only) use the form at <http://www.dtic.mil/dtic/s-stinet-app.html#form>. In the User Code Block, insert **NPS Distance Learning Student**. In the Payment Field Block, type in your Course Completion (graduation) Date. Fill out the rest of the information as specified. You will receive your user name and password from DTIC via registered mail.

In order to be able to connect to and use **Secure STINET** you must have a web browser that supports strong encryption. Browsers with strong encryption are available to U.S. and Canadian citizens or permanent residents only.

We encourage all NPS students and faculty to sign up for **Secure STINET** because it provides access to:

- **limited distribution materials** unavailable through Public STINET.
- a growing collection of **full-text documents**.
- the inside **web** and **SwetScan** databases, which index international journals and conference proceedings on health and social sciences, **business** and economics, arts and humanities, manufacturing and engineering, agriculture, law, and pure sciences.
- **Military Library FullTEXT**, which allows users to search a growing list of military titles, trade publications and news weeklies. It covers more than 600 periodicals and contains full text for more than 210 of them. In addition, the Economist Intelligence Unit (EIU) Country Reports for 18 industrialized nations are included.
- a "**Gray Literature**" database. Gray material is that which is usually is available only through specialized channels or systems of publication, distribution, bibliographic control or acquisition. It is difficult to identify and to obtain. It includes research and technical reports, working and discussion papers, unofficial government documents, conference proceedings, preprints, dissertations and theses.
